

COVID-19 ITS Support Packages

MVIS' COVID-19 ITS Support Packages have been developed to assist local authorities with managing and communicating their COVID-19 Tier status to pedestrians and drivers.

Tier 1 4-6 x HD Compact VMS

Ideal for urban areas and pedestrians, the HD Compact VMS is our smallest portable VMS unit. The bright, red and white LED display boasts a 20mm pixel pitch and makes an impact anywhere.

HIRE DIRECT WITH MVIS FOR HIGHLY COMPETITIVE PRICING (TIER 2 & 3 STATUS)

Packages are recommendations only and can be adapted to meet the requirements of your local area.

Tier 2 6-8 x Portable VMS-A / VMS-C

Featuring a 5-colour LED display for text or pictograms, the VMS-A and the larger VMS-C are ideal solutions for communicating your area's COVID-19 policy to residents.

Tier 3 8-10 x Portable VMS A / VMS-C 4 x Portable CCTV

The addition of portable CCTV allows you to have eyes on the ground without having to physically be present.

MVIS offer support for a range of COVID-19 applications, including our **Gateway Border Management** and **Test Centre Queue Management Solutions**.
