

SOLAR INTELLIGENT PLATFORM (IP)

Take a flexible approach.

Hire our Solar Intelligent Platform (IP) for a flexible and responsive approach to your traffic or event management project. Simple and cost-effective to deploy it requires no civils or external communications.

MVIS will deliver an integrated, intelligent transport system (ITS) solution that meets your specific needs using Solar IP and any combination of VMS, ANPR, CCTV and Wavetronix HD radar. If things change, the Solar IP can be quickly and easily reconfigured.

KEY FEATURES

- Mobile
- Flexible
- Solar powered
- Energy independent
- Environmentally friendly
- Silent
- Cost effective
- Easily deployed.

Mobile Visual Information Systems

TECHNICAL SPECIFICATIONS:

TRAILER

Length (overall): 3000mm
Width (operating position): 1760mm
Height (travel position): 2500mm
Height (max operating position): 6600mm
Weight: 690kg

POWER

Voltage: 12V, 24V, 48V
Solar panels: 2 x 250W panels
Operation: Batteries / solar
