

MONITORING OF AIR LOCK SYSTEMS ON FULL CLOSURE USING MVIS SOLAR BARRIER

Using MVIS Barrier system & Jenoptik ANPR camera technology, we have developed a new range of enforcement and data management solutions for temporary roadwork schemes.

All solutions link in to the Jenoptik's TrafficData Cloud based BoF for client enforcement & evidence packs.

- Fully Jenoptik Hosted solution
- On site speed compliance tool
- Incursion recording capability
- Delivered to site in a single shift & calibrated
- 600w Solar Array, low power requirement
- 24/7 data gathering
- Zero Emissions
- Footprint: W: 1760mm / L: 3000mm
- Overall Height: 3M - 6.6M
