

SOSEC 200 BARRIER

WWW.M-VIS.CO.UK / SALES@M-VIS.CO.UK / 01629 580570

SALE & HIRE SOLUTION

For use when only vehicle access needs to be controlled. The 5m barrier can be put into place on a forklift and be working immediately, meaning once on site, security can resume or start asap.

Easily moveable to allow it to be taken to a different part of a site if needed, with no interruption to use.

Intercom, fob, code or swipe card entry can also be added, plus the unit can be branded too. Includes auto-exit feature and barrier skirt to prevent pedestrians going underneath.

“Using SOSEC barriers has allowed us to cut site security costs, improve public demarcation and reduce HSE interventions”.

Rob Crossland, Kier Construction
