conditions

up to 12 LANES OF
TRAFFIC

PORTABLE, EASY TO OPERATE &
EXTREMELY RELIABLE.

Engineered for precision, ease of use, and unparalleled reliability, this cutting-edge radar is an essential tool for comprehensive speed detection, data collection, and traffic management applications. Whether you're overseeing a construction site, quarry, or any service area, this advanced radar system will provide you with the data you need to optimize operations and enhance safety.

Utilising state-of-the-art systems to deliver consistently accurate and reliable data. Its high-definition capabilities enable it to collect detailed traffic information, including queue detection, journey time, and in-depth vehicle analytics. This radar system doesn't just capture speed; it provides a holistic view of traffic patterns, giving you the insights needed to make informed decisions about your worksite or area of interest.

In today's fast-paced world, having reliable, high-quality data is key to staying ahead. With MVIS's Solar-Powered HD Data Collection Radar, you gain access to the tools needed to fully understand and manage traffic in your area. Whether you're looking to enhance site security, improve traffic flow, or gather critical analytics, this radar system is your go-to solution. Trust in MVIS to provide you with the latest technology to keep your operations running smoothly and efficiently.
