

SOLAR POWERED TOWER

WWW.M-VIS.CO.UK / SALES@M-VIS.CO.UK / 01629 580570

PRODUCT UNDER TESTING

TRAILER

Currently built on one of our VMS-C trailers we have ensured that this product as simple and easy as towing any regular trailer.

To move the trailer it is as simple as hooking up to an appropriate vehicle, un-winding the legs and lowering the Mast and Solar Panels so you can take it wherever it is needed.

POWER

Filled with 4 x 12V batteries wired into a 24V system, these batteries are able to supply 320amps of power.

While being fully solar powered thanks to the solar panels attached to the front.

These panels can be stored for easy transport and work on a slider system so deployment is easy.

INTENDED FOR:

HIGH-POWERED CAMERAS

PORTABLE WIFI

3D CITY RENDERING

SO MUCH MORE

MVIS' Innovation Hub has been home to some of the best and most utilised products on the roadsides in the UK, and we do not intend to stop innovating.

This product is the answer to high power draw products that can plug and play onto portable solar units like the Solar IP. The Portable Solar Tower is a stronger and more durable portable solar solution made to power the strongest cameras and products so you can take them around your site when you see fit.
