

PRODUCT ADD ON

DATA ALLOTMENT

Starlink adapt to the way you work and allow you to scale your data usage without committing to more than you need.

Start by selecting one of our preset plans. From there, you can tailor it even further by adding extra data blocks as required—available in increments of 50GB or 500GB.

This way, you stay in control.

POWER

Engineered for long-lasting performance, the Starlink Performance unit features a robust aluminum enclosure designed to withstand harsh and remote environments, challenging weather conditions, and even continuous in-motion operation.

It also offers flexible power options, operating on both AC and/or DC power.

INTENDED FOR:

ROAD WORKS

QUARRIES

CONSTRUCTION SITES

SO MUCH MORE

MVIS' Innovation Hub has been home to some of the best and most utilised products on the roadsides in the UK, and we do not intend to stop innovating.

The Starlink connected to MVIS Solar Tower is the perfect solution to low coverage in areas that do not have any access to wifi. Made to fill areas within Quarries with wifi but also making it a portable solution so you do not have to install wifi on site.
